## Summary

Full Stack Web Developer with a background in Hospitality and International Relations. Strong dedication to continuous and life-long learning. Known for a great work ethic, with an ability to multitask, communicate well, problem-solve, and adapt. Recognized attention to detail and ability to think creatively and outside of the box.

## Technical Skills

Node.js., Express, JavaScript, jQuery, React.js, React, JSX, GIT, GitHub, MongoDB, MySQL, Mongoose, Handlebars, HTML5, CSS3, Bootstrap, APIs, Heroku, Terminal, Restful API, ES6, React Hooks, JSON, Sequelize

## Education

**Full Stack Web Development Certificate** - University of Minnesota; Minneapolis, MN | **2021**

**Bachelor of Arts in Global Studies** - University of Minnesota; Minneapolis, MN

**Master of Science in Global Affairs** - New York University; New York City, NY

## Projects

**National Parks Finder** | GitHub: <https://bit.ly/3hfYUyy> | Deployed Project: <https://bit.ly/3tutnO8>

User searches by US state abbreviation and is shown a list of National Parks in that state. Each list item also offers the option to look at that park's 5-day forecast.

- **Role:** Created the HTML skeleton and styling the webpage with CSS. The team worked together on most of the JavaScript for this project.
- **Technologies Used:** HTML, CSS, JavaScript, jQuery, Bootstrap, Moment.js, Pure CSS

**Work Day Scheduler** | GitHub: <https://bit.ly/2VyHgyA> | Deployed Project: <https://bit.ly/3zYg3Ev>

User is shown a scheduler that lists each hour of a work day. Users can write in events and save them to the scheduler. Each hour is color-coded to indicate whether the time is in the past, present, or future.

- **Role:** Served as the sole developer for this project.
- **Technologies Used:** HTML, CSS, JavaScript, jQuery, Bootstrap, Moment.js

**Awesome Crap** | GitHub: <https://bit.ly/2Vr9hI6> | Deployed Project: <https://bit.ly/2X8lkel>

User logs in to this webpage to search garage/yard sales that have been posted. Users can also post their own garage/yard sale information, as well as save sales of interest. Each post shows a google maps image with the location of the sale.

- **Role:** Created the bones of the website using React/JSX and for most of styling using CSS. Worked on the image api. Aided in fixing bugs along the way with the group for both front end and back end.
- **Technologies Used:** HTML, CSS, JavaScript, JSX, Node JS, React, MongoDB/Mongoose, GraphQL, Express JS, Apollo, Cloudinary API, Redux, React Datetime Picker, Moment JS, react-google-maps.

## Work Experience

**The Butcher's Tale / Butcher & the Boar**; Minneapolis, MN  
**Server**

April 2018 - Present

Competitive server position, responsible for providing exceptional hospitality for several guests simultaneously. Tasked with remaining up to date for an extensive menu and rotating items.

**Lyn 65**; Richfield, MN  
**Bartender**

May 2016 - April 2019

Attended beverage and food orders simultaneously from bar patrons and for the service bar. Batched specialty cocktails outside of business hours. Provided exceptional customer service through effective interpersonal communication. Trained and mentored new bartenders.
